### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2133

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over the admitted prior art in view of Eggleton et al (6,307,988).

As per claim 8, the admitted prior art discloses a transmission characteristic compensation control apparatus which compensate transmission characteristic degradation using a plurality of compensation circuits, comprising a control circuit for controlling each of the plurality of compensation circuits. (See pg. 1, line 35 to pg. 2, line 9). The admitted prior art does not disclose a part for providing at least one error information and code error correction information on the transmission signal. However, Eggleton et al disclose a means for providing at least one error information and code error correction information (error detection

Art Unit: 2133

and correction information) on the transmission signal so as to compensation the degradation on the transmission signal. (See Fig. 11, col. 8, line 44 to col. 9, line 18). Therefore, it would have been obvious to a person of ordinary skill in the art, at the time the invention was made, to incorporate the error detection and correction of Eggleton et al into the invention of the admitted prior art to compensate the degradation on the transmission signal.

As per claim 9, this system claim is also rejected under the same rationale as set forth in the apparatus claim 8.

As per claims 1-7, these method claims are also rejected under the same rationale as set forth in apparatus 8 and system claim 9.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phung My Chung whose telephone number is 703-305-9686. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert Decady can be reached on 703-305-9595.
